Artist Name: Ronald D Creech

Ive been incarcerated 33 yrs doing art 25 years. I make Jewelry boxes, Light houses, Cabins exct. I love building stuff. I like to make things that nobody has seen befor, I put my heart into every thing I make so that others can enJoy it. I'm from Michigan and the Great lakes so I figured a light house and cabin would be appropriate. The process was hard at first but got easier as more I deas came up in my head. I got some ideas from TV, however I really made it my own. Being incarcerated is not easy when it comes to having proper tools to make such items, we have to use Nail Clippers To cut because thats all there is to use. So with what I have and can get I make it work and believe Ive Done a great Job Doing it. I hope its enJoyed as much As I enJoyed my Time making it.
