

### Please consider writing an artist statement!

Artist statements provide viewers with deeper insight into the artwork, the artists, and the conditions in which the art is created. This is one of the best ways for PCAP to bring the artists' voices into the gallery alongside their artwork.

### Purpose of an Artist Statement

An artist statement allows you to share information about yourself, your work, and your creative process. It provides meaningful context that helps viewers connect more deeply with your art.

### How to Write and Artist Statement

If you already know what you'd like to write, go ahead! If you need a starting point or prefer a prompt, consider the ideas below. We recommend responding to one or two prompts that resonate with you.

### Prompts:

- What information about your creative process or artmaking would you like to share?
- Why do you choose to make art?
- What details would you like to share about the pieces you are submitting?
- What was the process of creating the artwork like for you?
- How did you make your artistic choices? (For example, how did you choose your colors, why did you choose a certain style?)
- What do you hope others will understand from looking at your piece?

For The Watcher I chose those colors because im from Detroit and a DieHard Lions fan. The R.I.P Charlens I chose those colors because she had a bright and colorful life, and I chose to do flowers because she loved all flowers not just one kind. Life Punches/Adversity I chose those colors because Black Blue and yellow are three of M. Ali Favorite colors. The Autism set I chose those colors because children with Autism see life through puzzle pieces and different colors depending on they're mood bright colors means they're in a good mood

Artist Name: DRELL  

The meaning behind my artwork this year is missing others and understanding that they did and still play a big role in my life! The R.I.P Charles is because my brother's wife died 9/7/2025 & just because she left this earth her brightness didn't have to die with her so im doing 35 Abstracts starting from one flower all the way up to 35 Flowers which is the Age she died, once I reach 35 Flowers im done with Abstract period! Then AS you all know I only do an Muhammad Ali once a year every since he died because he was my Idol and to show my Respects FOR him hanging my artwork up in The Muhammad Ali Art Museum in Louisville Kentucky thats another reason why I made my Autograph Boxing gloves with An upside down M & A For Muhammad Ali. I painted the Childrens Autism because My Goal is to Start an nonprofit donating drawings and paintings to children going through adversity of All sorts, I already have the business plan written up I just needs help. The Lion I named The Watcher because I'm From Detroit and I Love my city I feel like its up to me to help Change it For The better & I Got the heart OF A Detroit Lion<sup>12</sup> because they never give up
