

Artist Name: Wiegand (Bill)

I don't know for me and me only when I start a project I seem to go to a different place it is calming to me when I get to that place and so many things enter my head so I see a ~~picture~~ picture and just go with it. I have always had a thing for dragons the more gothic the better for me I don't care for the typical Chinese dragon it needs to be so real, the meaner the better for me, and for the skulls pretty much the same classic, gothic just so different from just the same old stuff that you always see I like different always have stuff that nobody sees or have that is about it so I hope you like and enjoy my stuff.

Thank you

and have a Bless Day  
William Wiegand #476644
