Artist Statement: 27th Annual Exhibition of Artists in Michigan Prisons

Artist Name: Patrick Chesnutt - I invent stuff sometimes for small or large

Companies, was funded once by Red Bull to invent in competition.

Brain Storm And HyperFocus, Im on Future Problems Solvers of America

team for the Gifted students "94". Im into fabrication and

Architect technologies. Ive got a few U.S. Patents in U.S.P.T.O.

I wish all my inventions to become material and physical in

prototypes. I hope some one helps me in my dreams to

make this art all prototypes. I love to see my inventions

inventions come to life. I do this type of art because

I have hyper brain storms, and I need to record my

every ideas and thoughts. If you buy my ideas try to remember

me. Im here to help....

Art is Invention... Every time I look at this Invention
I wish every product on this device were
Actually really tangibly created in the real life, and each invention
were created and I could hold them...

(So much Life & So much Death) is
a meaning of the Science of Living - to become
more alive, inside our mind... Time is the invention
and what it represents Birth and New.

The Future of progress science, Life Death
Life after it, time runs out...

This piece is an Monument Dedicated
also to the Study of Science, Development, Research
and Experience of Life after the Clock comes Down.

I Display So much Life
& So much Death in creation.
