

Artist Statement: 27th Annual Exhibition of Artists in Michigan Prisons

Artist Name: Lamont Williams (will)

I find Art as a place of Serene, and peace. There are moments I find myself connecting with how I am feeling or where I can see myself. I find myself at times Abstracting from something visual, and placing it in a happier place. For example the panther relaxed and Calm, With water coming down Behind it, and I decided to call it Falls. the colors gives it a place of seclusedness.

The woman has a tear falling from her eyes, the colors of her hair represents her Beauty. When I drew this, I visualize her looking at her self in a mirror and recognizing her Beauty. She appears to be happy or sad, so I decided to call it Tears of Beauty
