In the free world I am a full time Auto mechanic and part time Tattoo Artist, Art has been a part of my life since it was 16. Here in Prison I do a lot of Pencil portraits of peoples Family members and also pets. A hand drawn portrait is the original photograph, and a very personal and intimate way to connect with a loved one at home and remind them that they are important to you and on your mind while your away. I take pride in my work and enjoy the feedback I get from my customers upon their portraits arrival home. Some pay tribute to a lost loved one, some honor a graduation or the birth of a new grandchild, but one thing that they all have in common is that they capture an important memory that can be displayed and shared with anyone.
