

Artist Name:

Brittney Gratkowski

So back about 20 years ago, my Art teacher wanted me to build a horse out of sticks, & twigs for the Art Show, however I did something different. Which inspired me now to give it a try. Art is my passion, I LOVE Crafting, and building things. Choosing nature, and life is very calming, relaxing, and enjoyable. I hope people understand that there's so much provided from nature.

Thank you
