

Artist Statement: 27th Annual Exhibition of Artists in Michigan Prisons

Artist Name: Mentwell Spivey

Throughout the history of time: We all marvel over the greatest master builders of this world, like "Imhotep" and the pyramids of Giza. Now, we should all be able to see and understand the remarkable things about making something from the subconscious state of mind. Sometimes our creativity can go as deeper than the imagination. In closing, my mind and the things that I build is the wealth for which no substance on earth can establish a value for. Because my mind is my heart to the things that I build and make!

Thank you for your time and understanding as you begin to marvel over the small and beautiful items that I've made. . . .
