

## Artist Statement

11-11-23

Thank you for taking the time to view my art. Art is an expression and outlet for me. Before each piece I make a playlist of songs and try to connect with the subject I am painting.

I started painting in 2017 and portraits have been my passion. The past couple of years I have used my art to try to raise awareness to subjects I feel need change or attention in the world. This year school shootings, equality and political agendas were my work.

Each piece is a growing process for me on what works and sometimes doesn't. I think as an artist when you're creating the goal is that your work connects with someone on some level or makes them think. I hope my work leaves an impression in a positive way.

My goal in the future is to connect with an organization and hopefully use my art to help bring funds and awareness to a good cause.
