

Artist Statement: 27th Annual Exhibition of Artists in Michigan Prisons

Artist Name: Davis-EL

The Art work that i right is for the person who is a deep thinker and like to do there own research ~~insted~~ instead of going with what someone tells them, also this is a reflection of my life growing up in Michigan, i choose to make art because i feel that i have the talent to do so and after four years of reading writing books in 2017 i felt that the time was right for me to start writing myself, i hope other's understand that even though your doing good or bad if you put the work in regardless what the out come may be you have the talent to do what you like in life even if you start with a empty glass put the work in to make it half full.
