The Eye Of Us

The world as we see it, was formed through vision.

Different languages, faces, cultures; envisioned.

The many colors that hold a richness so deep.

From one seed we have a thousand family trees.

We create so much division if our vision is tainted.

Each one of us represents a shade but God holds the

brush to this divine picture He painted.

I drew this piece because I often think about how life

would be if we seen it through the eyes of love

If we stopped all the judging, and really tried to love
