

Artist Statement: 27th Annual Exhibition of Artists in Michigan Prisons

Artist Name: Christopher Hemwall

After a long while of watching the war in Ukraine, I drew the F-86 Sabre. It was our primary jet fighter used in the Korean War. Our Cold War with Russia lasted from 1950-1989 and was littered with proxy wars along the way. Now we are entering a 2nd Cold War with Russia and China. Maybe 70 years from now my grandkids will be drawing pictures of our F-22s, F-15s, F-18s, and A-10s.

As for the car, I love Ford. My grandfather worked for Ford after WWII until he retired. The first car I watched my dad rebuild was a 1967 Ford Mustang. I love cars in general and really like the pro street setups. Especially on what is considered luxury or personal sports cars. Give me a blank check, and this is what I'd build... Before it becomes illegal.
