

Artist Name: Shayla Plaster

I'm a Gender Dysphoric women Artist in the music. This art work is to show and represent The Transgender community. To show were just like The next person to Love and Have Friends, Family's, and be Creative artist. As well to work as one with The world. were just looking for The same Life and Rights as your community. AS well for The world to see us as real People. There may ~~not~~ Be 1% of Gender Dysphoric People in The U.S.A. But were Here. Just know were People, also and would like to be accepted Just like next person out There.

This is me asking you outside of The Political world; Can we all Look and See The Humanity in each one of us. Can we just love The Hole world as one. AS well as See each other For what are Differences are under God's Love. I will always see you in God's eye's. People can Do as They like to me But I will as one of god's children Love you for you. I will see you as a child of god and Love you like He would. So know This even if you can not see me for me. I Have god and he will Love me Just like The next person even if you can't. **Know This;** I Keep Hope in me and in you. Because with out Hope in This Life. I would be no one But a forgotten person and I am not someone to forget and neither are you.

So Let us come together as one community and show The world what Hope and Love can do for all of us.

In Solidarity
