

Artist Name: Jayson Grinstead

I like the idea of creating amazing pictures with different objects and colors a picture that will bring happiness to any person who views or owns some of it.

I am always learning and trying to better my art and skills and just like anything this takes practice and time

I enjoy cartoon as well as realism art. I've always drawn, but this last ten years I've drawled every day and improved my craft. I like strong colors, clean outlines, and many different shapes and ideas

My goal is to one day be able to draw anything I can look at and have it be unbelievable.

thank you
