

Artist Name: Elijah Morris

My Art and poetry is always about Emotions and Love the Idea behind this years painting is "Memento MORI" = To Remember Death and and more importantly LIFE. And the fact that we all should seek to enjoy life everyday and give this joy and Love to as many people as possible

Title ⇒ "MEMENTO MORI" = A reminder of LIFE AND Death / Remember to "Enjoy LIFE!"

The reason ~~I've~~ chosen to do the SKULL, is not a negative or Spooky outlook on LIFE! But solely as a reminder to have Fun in life, live as happy as possible give all your heart and Soul in love, peace, patience, mercy, "all good things!" To Enjoy life Fully!!

In spite of Bad days, trauma, and worst remember to love and Enjoy life. The creatures by the SKULLS represent the soul And the bonds they create that are so strong that they stay Bonded even in the next life.

One thing about me, is that I/who I'am now as a MEN and human being. I just want to be known, for Who I really am Not Who People think am. But for the soft heart, kind, lover of all humankind, that only wants to give love joy and healing to the World.

"MEMENTO MORI,"

With that said, Thank you for giving your light and love to the world in your unique way, never stop giving them,  
"BE BLESSED."

Sincerely,, Elijah Morris
