

Artist Statement: 27th Annual Exhibition of Artists in Michigan Prisons

Artist Name: John Beverley # 409114

My art began as me thinking I could easily put what is in my imagination onto paper. After several attempts to create a duplicate of the images in my mind, I discovered that I like making abstract art the most. Although I am a firm believer that there are no strict rules in art, that does not eliminate the expectations many have when looking at some pieces. While some may observe and think about what they might do differently, it is almost impossible to assess abstract pieces against any set of rules or expectations. Hopefully my style will inspire others in their free expression of art.
