

Artist Statement: 26th Annual Exhibition of Art by Michigan Prisoners

Artist Name: DJ Puckett

Before I came to prison I was racing cars on a oval dirt track for 30+ years. I use to build my own cars from a bare frame until it was complete, race ready. One day in prison I picked up a magazine that had new school and Old school ~~Harley's~~ Harley's. This is the first old school Harley I made. I'm more into the new school stuff.

But I wanted a challenge so this is how it turned out. Its called a Bobber. I've never even sat on a Harley in ~~my~~ my life. But I feel Im good with my hands and I can picture things in my mind of how I want things to look. So building these came pretty ^{easy}. Although its very time consuming mostly because everything is so small. Its all made from paper, cardboard, Spring out of a ink pen, small wires from a harness of a t.v. I hope you like it.
