

Artist Statement: 27th Annual Exhibition of Artists in Michigan Prisons

Artist Name: Melissa Germain

I made these ordinary items that normally would have been thrown away, into something useful and pretty to look at. We need more beauty in the world and we also need to learn how to re-use/re-cycle ordinary things into something useable to help our earth. ^{since} Being locked up I have learned how to be more resourceful with the few things I have available to me and to be creative in ways I had never even thought of before.
