

Artist Statement: 27th Annual Exhibition of Artists in Michigan Prisons

Artist Name: Shane Smith #378677

I love art of all kinds, the work that goes into it, the thought process behind it and creating something that grabs peoples minds, having them think deep. Art is meditation for me and takes me into another world. Art has so many levels, so many thoughts and emotions, art tells stories and opens the mind to new ways of thinking and asking questions. I put my music on and drift off into the world of creativity, always looking to try something new always trying to use everything, hate wasting anything. I'd rather try to make something of it. I truly believe art is a talent that dwells within us all on different levels. Anything thing I create comes from the heart, a deep place; with hopes that others will see it and it will pull from them thoughts, emotion hopes, and motivates them in some way. I feel Art is and has always been apart of the human experience. Thank you.
