

Artist Name: Nephesh

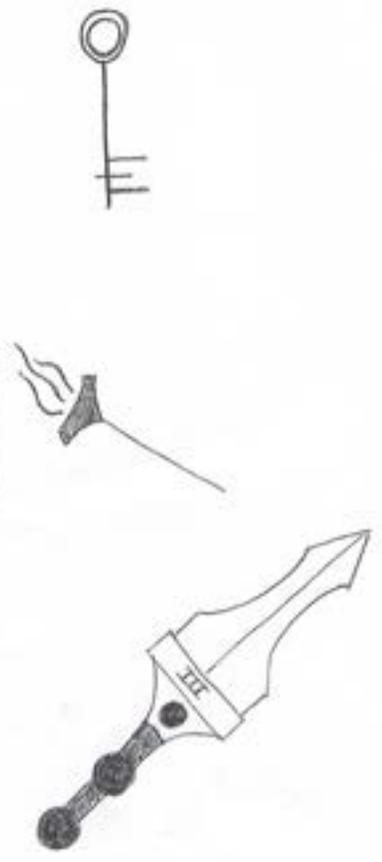

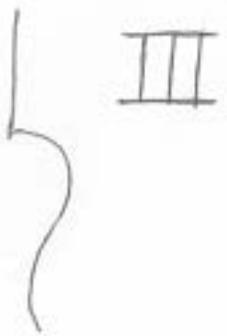

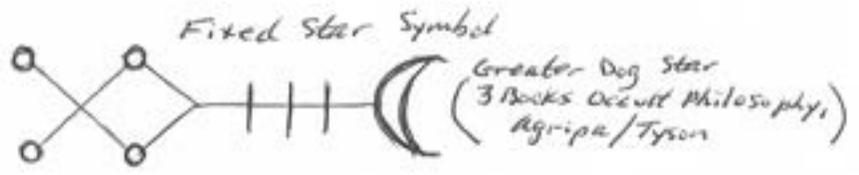

This work was originally crafted for my use. I use materials available to me out of practicality & necessity. My art is functional, a use & a meaning.

What do I want, what's the look I want & how do I do it w/ the materials at hand. This time I was able to do it with cardboard & paper.

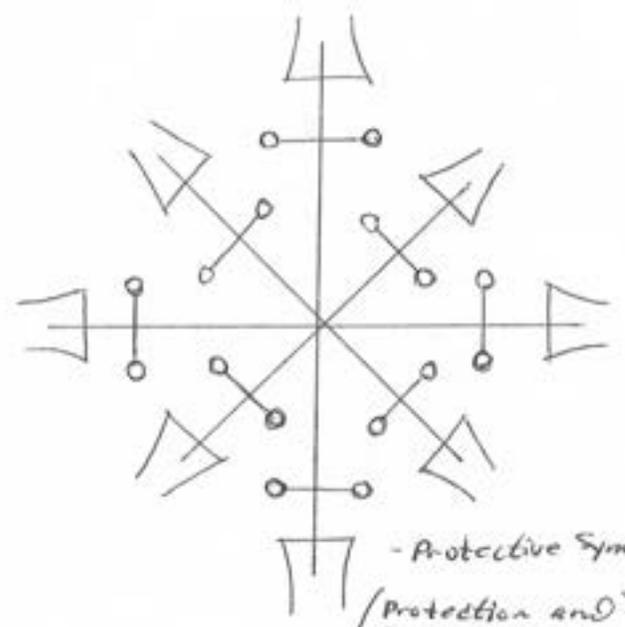

It is my hope that others be inspired to think more creatively using the materials at hand to achieve their end. For every body has a great work with in them.

Material may be added or taken away from this book. The books thickness is only limited by the length of string or ribbon.

Through Will & Creativity may your world be transformed — with in & with out...

(Book of the Witch Moon,
Michael Ford)
