

Artist Statement: 27th Annual Exhibition of Artists in Michigan Prisons

Artist Name: _____

Big Lyle

I have loved art all my life I felt it was a way out of poverty but my dad told me it was a waste of time so I just made it a passing thing in my life. Now that I'm in here its an escape an a sense of Humability. I ether see something I like or just pop up an Idea and try to make it look or feel the beutifull or emotional or even just cool energy that I emit into the drawing or statue. "reaching out" is for anyone who is at there lowest thinking no one is there but if the only reachout or say something they will find that some one will pull them up. "the goal" is just a mindstate of being finacially independant. "exotic" is just a Beutifull lady that a Bit different, Hypnotic is one of classed beuty and I hope her eyes just draw you to her. I hope that everyone is seeing this as I do an love them as much as I also.

Thank you
