

Artist Statement: 27th Annual Exhibition of Artists in Michigan Prisons

Artist Name: Gregory Kopicko-Jones

Self expression through art and having the ability to develop an image to share bits of the mind unseen by others... Completely exhausting, espically when you are your own worst critic. But those rare times when your able to create something that speaks to you enough to want to share it with someone; now thats what makes the process worth all the B.S. that comes with it.

Be inspired by what makes you, you.
