

Artist Name: Twitch

I was Diagnosed with Tourette Syndrom and ADHD at the age of 8. These two "Disabilities" Made it difficult for me to Function at times and Focus on anything for any extended lengths of time. I Learned how to Crochet to help train my mind to Focus on things better. I Found that when I Crochet my Tourette Tics are not as bad. Crochetting is one of the few things I do and Feel "normal" while doing it. I guess in a way its Therapeutic. I have never let my "Disabilities" get in the way of things I enjoy doing.
