Elevated Gaze, Family Matters

I am very excited to submit art-work again this year. I look forward to this, very much, each and every year. As some of you know, I am a self taught artist, and have a great love for animals, and wildlife. This is where my passion lies, and this is what I love to draw. It is amazing to me that people come from all over to look at all this art work, and for me to have a chance to be on your wall makes me feel so blessed. It is this true love for nature and animals that drive me to do the best I can to convey the beauty of these creatures. I try to capture them as best I can and hope you all enjoy this as much as I do. In closing, I urge everyone to do ~~their~~ the best they can at conservation. Please be mindful of our resources and the environment, our kids, and many more rely on such.

Please edit your Artist Statement to the space provided

Please feel free to write me, I would love that....
