

Artist Name: Archie Leatherman

I like to do art to make myself happy and others happy. When I saw the chance to sign up for the Art Class PCAP, I was excited to be around like minded people I was cool to see all the talent in the class of 20 men. They inspired me to try art I really haven't ever done. To challenge myself. I draw pretty well so I decided to try painting. With painting it's been trial and error for me. Harvitz No eraser is something I'm out ~~use~~ to. What I hope if someone was to look at my art is the enjoyment and freedom I feel with every brush stroke. It's a true privilege to be around the PCAP Artist in my group. A couple have truly helped me come out of my artistic hole I thank them and the PCAP organization.
