

Artist Name: Mataya Shaw

For me art is a free expression. It's an escape, an outlet and an inspiration. One person may create the piece to perhaps have one meaning but a million people can see the piece and interpret it ~~to~~ to mean anything they see. Art is forever meaningful. When I look at my own work I see progress, I see growth. I see freedom. I may be confined by bars, fences and limited resources but I will never be confined inside myself. My art makes me feel whole, makes me feel as if I am still a part of something. I can transform my inner self to embrace the freedom my physical ~~body~~ body cannot be a part of. My art makes people think, makes them see new perspectives and gives them a sense of joy.
