

Artist Statement: 27th Annual Exhibition of Artists in Michigan Prisons

Artist Name: Spyder Byte

I am 25 yrs old. These Art pieces are very significant to me because they are characters of a comic universe that I have created. In fact, all three characters are super heroes. I chose the art style of anime because since I was 5 yrs old I have watched anime and the style is what I love the most. I am a very positive outgoing person that loves comics. Stan Lee was the person that inspired me to create my own comic book universe called Mysteria Unknown Comics. I hope people can understand my style of imagination by looking at the art of the characters I have created. I chose to make art because what better way to get people to understand who you are as a person than through art. It is the same thing as a musical artist & as an author. I hope people enjoy my art because someday my comics will be loved by billions of people. Enjoy your life & Live with no regrets! Spyder Byte
