

Artist Name: Hibbler

Hello,

I hope this letter finds you doing well. Let me tell you about myself and why I participate in the exhibit. I started out coloring trying to find myself in the art world, it did not satisfy me. So I went to drawing, nope still not feeling it. Then I turned paint into art, always perfecting my skill. I find joy in different pictures and scenes and found that I am good at recreating what I see.

Being the exhibition yearly gives me a chance to express my view on things. Which gives me joy in the beautiful colors and styles. Nature and animals are both enjoyable to paint. Then I find out that doesn't sell like prison expression's. Yes, prison is not for the sick, weak or feeble minded; sorry to say but those people don't receive justice or a decent sentence. Living on less than 20 dollars a month is not sane. A lot of ^{us} turn to our talent to help get the needs met. Thank you for taking your time to check me out. For any more info feel free to contact me. Holly Hibbler # 532358

Debilitated

Is a Representation in the State of Michigan, who are suffering from the injustice of Health in prison. The Disabled Lady in the cage is a problem Due to her needs to be treated for illness. The people on the hill/kids represent our loved one's who suffer with us. The black and grey snake is the majority of staff who feel we deserve what we get. The (Quebar) with deer is the State of Michigan Emblem hiding in the clouds. People with Health issues are dismissed, Deliberately.

Sincerely,

Holly Hibbler
