

JaMal Sam *The New Iron Age*

Iron sharpens Iron, and I see no glass
Only essential tools in building our future.
Did Dr. King not convince us to be “free at last”?

We respectfully give thanks to the strength in our past
Rather bleed for our Motherland than surrender and lose her.
Iron sharpens Iron, and I see No glass.

Only constructive efforts applying pavement to our path.
A foundation of Unity instead of mindless shooters
We hold value in each other, not a fist full of cash.

An example for our community where blood stains the grass
Blood stains the legacy of our ancestral Rulers.
Iron sharpens Iron, and I see NO Glass.

GOD created us to love us, so love the us that we have.
Our struggle is only that should we neglect to be tutors
A foundation of Unity, essential tools in our future.

Presenting light to opposing forces prepared for a clash.
As we Unite to stand firm, not one to maneuver.
Iron sharpens Iron, and I see **NO Glass**.
Did Dr. King not convince us to be “Free at Last”?
