Flaming Flower

I started drawing around the time I was 7 years old,
I ENJOYED drawing, up to the point I got to high school.
Then I stopped and I started getting into computer
repair. I don't really know why I stopped drawing, then
I just did. It wasn't till I came to prison that
I started doodling again and I got some what back into it.
The most of my drawings are sent to my little sister for
her to ENJOY and this year was the first year I have
decided to enter drawings in. I have never drawn
for anything outside of my family till this U of M
Exhibition of Art. One of the reasons I have decided
to enter my drawings into this exhibition of art for
U of M is to see the reactions I get for
my art. So I really hope you enjoy the artwork
that is displayed. Thank you
- Logan
