

Artist Name: D.M. NOAH.

This Ship is one of one, and made from the finest materials available, the best of the best, and of course all the while using Cave man Tools, with well over one thousand hours in its construction. I wanted to show off my handy work. I've been in wood working for many years, while incarcerated, this ship is not only one of one, by also the last of its kind, maybe not the master piece I was hoping to achieve but definitely one of a kind.
