

Artist Statement: 27th Annual Exhibition of Artists in Michigan Prisons

Artist Name: Alonzo Flores Castillo

"I describe ART as a birds song - lovely 4 all who hear it, but it has a deeper meaning 2 other birds and the few humans who understand ~~bird~~ bird calls."

So much of art is trying 2 make a personal connection, the most frustrating thing about the culture in which we live, is the huge amount of personal disconnection and emotional disconnection through my work, I just hope that people feel more connected 2 something or someone, and not so alienated. ART is my creator in the land of destruction 100 I lost alot in these cells and cages, but held on 2 my dedication...
