

Artist Statement: 26th Annual Exhibition of Art by Michigan Prisoners

Artist Name: Tucker Cipriano

To me Artistic ability is a form or form of a socially acceptable insanity. What I mean by that isn't that the artist is insane or that they may or may not be in the slightest way off putting; But that in this outlet of expression an artist is given the freedom to express or exteriorize thoughts as close or far as the artist may like from reason or logic and may call upon directly emotional, Mental or any at all type of expression. leaving any type of limit at the door gives the room for true artistic and any other kind of true freedom within Art.
