My Art is Inspirational and Therapeutic, I Hope
My Son takes a page from my book and find something
he loves and stays with it for the rest of his life.
I Hope that some one gets inspired by seeing my
pieces or any other piece of art and continue to explore
their talents and Creativness and use it to inspire
someone else or use it as therapy or an escape as I
do to take me to another place and frame of mind
that there is No Stress, No Hate, No Worries, and
Nothing but love and Creativity.
