

Artist Statement: 27th Annual Exhibition of Artists in Michigan Prisons

Artist Name: Robert Hillis 523629

The concept behind "we hold the powers of change" is an inner  
whisper to us all that if we seek change in our life or  
the lives of others, we all hold the power to make that change.  
# To rise up and become more than we are, or how others see  
us. The elements of change are within us. A fiery passion  
to move forward, to flow like water over life's obstacles, to stand  
solid for a belief, or the breathing of life into an idea. These  
powers are in all our hands.
