

Artist Statement: 26th Annual Exhibition of Art by Michigan Prisoners

Artist Name: Steven Winston

I Am a aspiring artist who loves to draw current events, as the world evolves and changes daily I try to keep up and express peoples feelings through my art.

My art doesn't always reflect my own personal views, I try to express it through different perspectives.

Whether you take the vaccine or not this drawing shows being on the vaccinated side of the shot, that days can be brighter and we can learn to smile again after or even during this unexpected pandemic.

I have lost a very, very close family member to Covid.

May GOD bless the people who have surcome to this virus and give strength and faith to the people who are fighting to get better. Amen
