Everything isn't as what it seems.
 More specifically, Boss ass Queens who're
 portrayed to be so heinous and mean.
 Violent abusive past, full of pain-filled screams;
 living a nightmare w/ the man of her dreams.
 Blood in her eyes from what she's been thru
 and seen; played kards she was delt, got finessed,
 cheated, and schemed.

From jake ass jacks to childish, cowardly
 kings; not to mention insecure idiots here &
 there in-between.

How is it in a body that she can't leave; she doesn't
 have the choice whether she births a child that
 wasn't conceptually conceived?

Rotten apples force unwanted seeds on deli-
 cate flowers leaving them battered and bruised to
 grieve.

Told they couldn't read, believe, vote, or lead;
 I suppose next she'll need the right to
 bleed (period.).

In this House of kards there is a
 need, you play your hand not yourself,
 or you'll lose indeed, bc all Queens are
 justified 10 fold to have something¹²
 up their sleeves.
