U.P. Proud

I started to draw when i was about 6. I continued that into Highschool and even now. Since I was little, Art has been my safe place. It takes me away from all the stress and anxiety. This piece is very special to me. Im from the Upper Peninsula where we enjoy fishing, hunting, skiing and country living. Ive lived in the U.P. my whole life, so I wanted to design something that was a piece of me and very special to me. I put my entire heart and soul into my artwork and I even write poetry. Poetry and Art are my escape from reality
