With my SCARY WARRIOR picture, I was feeling in the HALLOWEEN spirit. So I thinking of something creepy to draw. I came up with a half-dead ZOMBIE WARRIOR. With my drawing materials I fell in love with the SAKURA MICRON Pens. They are amazing pens that can get all the detail lines to make my drawings come to life. I also did something different with the paper. I chose some STRATHMORE GRAY drawing pads. I always drew on white paper. I think the gray background made the pictures popped.
