Unity, Devotion

① I chose to draw Obama because this nation as a whole sought to look past diversity for solutions to govern itself. When we limit our sources for solutions, we also limit our growth as a people. Humans are unique because their ~~conclusions~~ conclusions are never the same, but when unified can be most effective for the greater good of All! ② Its rare that you find integrity these days, however this subject has totally committed her life to her significant other until his release in hopes of a formal commitment.
