Father's Responsibility

It is a blessing and a fulfilling
feeling to be able to see the problems of
society and bring them to canvas. And also
to be blessed with the ability to do so. For
the following "Father's Responsibility" is
produced by seeing so many fathers that
want to provide for their child or
children but do not possess the means
to. So the fathers have no other
choice but to pray and look for
some assistance from God or his
wife. Thank you for your time.
Sincerely: Mr. M Hendley
