I picked up #2 pencil 3 years ago and started doodling on paper cuz My Mother was Really Sick and she wanted a picture like I used to draw for her when I was In Kindergarten I couldn't barely Draw A Stick Figure Correctly I Sent Mom 2 Stick Figures holding hands in the Sunlight on a Hill I know it prolly looked like a little kiddnewit But Moms ya know love anything you do But before she passed she told me my little pics I send her make her Day and said they get better each time and to stick to it! I draw to make ends meet In Here! I dont have much support anymore plus I really do love to Draw cuz I was really poor as a child and really couldn't afford anything but paper and crayons and Markers and stuff So it puts me at ease like a piece of me In all my Graphite I really love drawing Now I learn something everyday and it keeps me Interested and More propelled to push it to it's Limit....
