Seascape

I'm a self taught Artist, when I became stressed one day a friend suggested "Drawing".

I took the advice and started to draw when I became stressed. My first few attempts were quite bad!..

Having no income to spare I started to find any way I could to learn more and more Public Library, Magazines, Arts & Craft shows and of Course Trial & Error

Animals and landscape have drawn my interest so far. That area should hold me for now, there are so many subjects to draw or imagine.

Oh - I've only been drawing since 2016
