

Joshua Purdy

68-20

The First

My name is Joshua Allen Purdy. I am 21 years old and I am from Grand Rapids Michigan.

I have been drawing and creating art since I was 14 years old.

The art I started doing was abstract art. When I create abstract art, I put my emotions and feelings into the picture.

Each line, every shade, and the spaces I fill, all come from my emotion.

After I got sober from my drug addiction to cocaine, I was going through waves of anxiety, depression, confusion, and terror. What really helped me pour my emotions out, was the art I created.

From my beliefs, emotion, to curiosity and happiness, I created my pieces of art by my thoughts and feelings.

So when people read, look, and hopefully feel my art, I hope they feel a piece of me also. Realizing, the young man who drew the pictures, is sending a message of how he feels.
