

**Artist Statement: 26th Annual Exhibition of Art by Michigan Prisoners**

Artist Name: James Riley

This is my first time in the art show and I wanted to try something new so I built this cabin (Living the Dream) what inspired me to build the cabin was that I was blessed with some land in Arkansas and the house that was there had an electrical fire and was a total loss so I built this cabin as if it ~~was~~ <sup>was</sup> the one I'm going to live in. When I create art it give me a sense of peace & happiness it's like a type of meditation for me. and for that time I'm free. I hope seeing this cabin brings much joy to you as it did for me when I was building it.

Thank you

Note: This cabin has working lights, the switch is on the back right side and the batteries are in the downstairs bedroom under the dresser.
