## Artist Statement

I have been crocheting for the last 3 years, I prefer crocheting Blankets and stuffed Animiguri. This year I was inspired to do this piece from all the political fighting going on. I asked myself how would it look if I were to bring it to life. I faced some challenges making the pieces fit right and how to position them for the message I was trying to convey.

I Enjoyed working on this piece.

Thank you for your time
