

Artist Name: RYAN HART

I have never understood, nor can I comprehend abstract art. All of my artwork is based on realism. This year I have focused on literary works with minor visual artwork. I am not familiar with ink work, as my normal drawing medium is graphite. This year I strived to push myself somewhat out of my comfort zone. One of my works this year is simply a fancy copy of Kip Moore's song "Hey Pretty Girl" and the other, well I am not certain of the criteria for a poem, but I would think of it as a poem that gives a minor insight as to where I, well more of what I am from. It seemed only applicable to call it "From".
