

Artist Statement: 27th Annual Exhibition of Artists in Michigan Prisons

Artist Name: _____

KG

This is my third year submitting work to the PCAP exhibit. I do not have people out there, so this is the only chance I have to share my work with the world at large, and am so grateful to UoFM and the PCAP program for making this possible.

Life in prison is not very conducive to the creative process, so I have a tendency to draw fantasy, sci-fi and other genres of the like to help me mentally escape from this existence. I still have a chance to have a normal life after I leave prison, but it will be a while before I have that chance. The PCAP exhibitions afford me a better way to cope with the remainder of my sentence. Now, instead of years left, I have shows. I will continue submitting works every year, as long as my eyesight holds out. Thank you PCAP and all of you who come to see our work. Your support means more than you could possibly understand.
