

Artist Statement: 27th Annual Exhibition of Artists in Michigan Prisons

Artist Name: Bryan Sallie

As an artist who draws with pencils, i've become a lover of Illustrational Artwork. Whether it be a Still-Life view of some place or someone, or a photograph or photographs taken of something that catches my eye in some unique way. Though realistic, my hope is that after I finish a project, others will creativity in my work. My technique is free-hand, I dont measure at all, just look and draw is my style.

These particular drawings i've selected for this event for me represents my craving for music and drawing. Both art forms have gotten me through my hardest times. My goal was to combine the two in a creative way but still maintaining my realistic style.
