

Artist Name: _____

First and foremost I would like to thank everybody that is involved with the Art Program at LCF, PCAP, also to the person, whom bought my first piece of art work, a small painting with a custom frame. It has impacted my life tremendously, by relieving my stress, I found it therapeutic, my self-esteem has increased to high, make the time go by faster, because it keeps me busy, and out of trouble. I am a Latino from the Rio Grand Valley in Southern Texas, most of my paintings are focused on my Hispanic culture, traditions, folks tales, and life styles. Last year I met Mr. Collison, AKA "Doc".

I complimented a painting of his, and he said he is an art instructor for the Art Program here at LCF, I joined the next class and I've been painting ever since. I started painting random things for my family members, and then "Doc" told me about PCAP, I submitted a small canvas painting with a custom picture frame and it sold! words can't explain my emotions when I found out that someone bought my art work, wow I have three paintings, one stretch canvas and two canvas panels, I hope you all enjoy my art work, I also look forward to keep contributing to this wonderful project as long as I live, Peace and Love. K1
